LAYİHƏ ÜZRƏ MƏLUMAT BÜLLETENİ

Funded by the European Union

EU4Energy Phase III

İcra müddəti: 01.01.2026 - 31.12.2028

ŞT ölkələri:
Azərbaycan, Ermənistan, Gürcüstan, Moldova, Ukrayna

Aİ-nin maliyyə yardımı: € 3 500 000

Ümumi büdcə: € 3 785 869

İcraçı təşkilat(lar):
International Energy Agency (IEA), CEER

Internet səhifəsi: iea.org/programmes/eu4energy

Layihənin təsviri:

EU4Energy Phase III supports Eastern Partnership countries in advancing clean, secure and resilient energy transitions.

Implemented by the IEA, the Programme helps partner countries develop and implement evidence-based medium- and long-term energy policies, improve the use of energy statistics, and exchange best practices with the EU and IEA members. Through capacity-building activities, policy dialogue and analytical work, EU4Energy helps beneficiary countries improve their energy governance, enhance data-driven decision making, and align energy sector development with international best practices and long-term sustainability objectives. The current phase of the programme (2026–2028) continues to focus on Armenia, Azerbaijan, Georgia, Moldova and Ukraine.

Gözlənilən nəticələr:

1. Partner countries receive targeted energy analysis and policy roadmaps reflecting their stated priorities.
2. Improved statistical capacity and better use of energy data inform national energy strategies and decisions.
3. Regional policy dialogue is strengthened through policy fora and exchanges on shared clean energy and security challenges.
4. Countries benefit from best-practice exchange with EU and IEA members on resilience, renewable integration and connectivity.
5. Stronger cooperation among ministries, regulators, statistical offices and energy stakeholders across the Eastern Partnership region.
