DT Global**Social media account links:****Project website:****Project description:**

The project aims to strengthen the institutional capacity of the Port of Baku enabling its resilient, sustainable and integrated development by introducing standards required for the development of a sustainable health, safety and environmental protection system. It is also to support further development of the Port of Baku Training Center and the International Cooperation and Project Department.

Expected results:

- Port of Baku certified for ISO 50001 (Energy Management), EcoPorts-PERS and ISO 14064-1:2018 (GHG emissions);
- Business plan for the Port of Baku Training Centre prepared and its Strategy updated;
- Three new training courses designed for the Port of Baku Training Centre;
- Training provided to Port of Baku staff on Green Port Concept, Project Management and Project Finance;
- Study Tour to EU MSs ports organised;
- Seven bankable project ideas identified for blending finance.
