Project description:

The Project supports the design and implementation of structural reforms across the Eastern Partner countries in the areas of business and investment climate, as well as financial infrastructure, human capital - including labour market and social protection - governance, as well as sustainability of public finances, and reinforcing the rule of law and good governance.

Expected results:

The project is structured into 3 assignments over 3 years (April 2018 - March 2021):

- i) Assignment 1 will result in the development of Investment Climate Action Plans (ICAPs) for each of the 6 EaP countries, based on a diagnostic by EBRD of the Investment Climate in each country with an explicit gender focus applied and consultations with country authorities and key private sector stakeholders.
- ii) Assignment 2 will focus on follow up consultations by EBRD with EC Delegations in the 6 EaP countries to prioritise technical assistance initiatives for implementation in Assignment 3, based on outcomes from the ICAPs developed in the first assignment.
- iii) Assignment 3 will focus on rolling out technical assistance initiatives selected for implementation by the EC and in consultation with country authorities during Assignment 2.
