**Aİ-nin maliyyə  
yardımı:** € 2 000 000

**İcraçı təşkilat(lar):**  
United Nations Development Programme

**Internet  
səhifəsi:** [emblasproject.org/](http://emblasproject.org/)

### Layihənin təsviri:

The "European Union for Improving Environmental Monitoring in the Black Sea" (EU4EMBLAS) project is the continuation of the previous EU project "Improving Environmental Monitoring in the Black Sea". The overall objective of the project is to help improve protection of the Black Sea environment. This objective will be pursued through further technical assistance focused on establishing modern systems and facilities for environmental monitoring in Georgia and Ukraine, as well as capacity building, assessment of environmental status in line with EU MSFD/WFD and public awareness raising on the Black Sea environmental issues. The key involved actors are the relevant national authorities, as well as research/scientific and educational institutions involved in the Black Sea monitoring.

### Gözlənilən nəticələr:

- Modern systems and facilities established to support marine environmental monitoring in Georgia and Ukraine.
- National capacities strengthened for application of modern analytical methods, data management and assessment related to marine environmental monitoring in line with MSFD methodologies and protocols.
- Awareness of general public on the Black Sea environmental issues further increased and education of young generation supported.
