Project description:
The project supports competitiveness and business environment reforms in the Eastern Partnership countries. At country level, it provides support to private sector development, evidence-based policy making and broader business environment reforms. At regional level, it stimulates reform implementation through peer reviews and regional policy dialogue.

Expected results:
- Improved strategic policy framework for private sector development (strategies/action plans);
- Enhanced institutional capacity of the government to deliver support to the private sector;
- Enhanced contribution of business associations to policy making processes;
- Enhanced capacity to monitor implementation of government policy;
- Availability of structural and business demography statistics;
- Third SBA assessment published, disseminated and used for policy making;
- Peer reviews on competitiveness reforms carried out.
