Project website: euwipluseast.eu

Project description:

The Project helps Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine bring their legislation closer to EU policy in the field of water management, with a main focus on the management of trans-boundary river basins. It supports the development and implementation of pilot river basin management plans, building on the improved policy framework and ensuring a strong participation of local stakeholders.

Expected results:

The initiative focuses on specific thematic areas: Legislation, policy development and institutional strengthening, including:

- Organisation of regular National Policy Dialogues.
- Preparation of analytical work to support policy reforms and implementation of river basins management plans.
- Preparation of country and regional training plan and organisation of trainings, coaching and training of trainers.
- Technical support for drafting and reviewing policies and strategies.
- Strengthening of laboratory and monitoring systems, including rehabilitation of laboratories and equipment, purchase of equipment, and technical support.
- Development and implementation of River Basin Management Plans, including.
- Organisation of joint field surveys in trans-boundary rivers.
- Development and strengthening of national databases on water related issues.
- Support to river basin management institutions in the implementation of management plans.
- Establishing a system for regular monitoring of the implementation of management plans.
- Public awareness, communication and data/information management.
