### **Layihənin təsviri:**

The EU4Energy Governance Project is a technical assistance project funded by the European Union, under the EU4Energy Initiative. It targets policymakers working in the energy sector of Eastern Partner countries and helps them strengthen their legislative, as well as regulatory frameworks and identify investment opportunities in key energy infrastructure projects.

### **Gözlənilən nəticələr:**

Since 2016 areas of work have included improving energy efficiency regulations and enforcement, enhancing the investment climate in countries' energy sectors and promoting of stakeholder consultations among others.
