**Project description:**

The joint European Union-Council of Europe project aims at adopting legislative and policy frameworks compliant to the Budapest Convention on Cybercrime and related instruments, reinforcing the capacities of judicial and law enforcement authorities and interagency cooperation, as well as increasing efficient international cooperation and trust on criminal justice, cybercrime and electronic evidence, including between service providers and law enforcement.

**Expected results:**

- The project's activities are built around support to EaP partner countries in the achievement of the following outcomes:
- Level of implementation of Budapest Convention in terms of substantive law and procedural powers into national laws.
  - Revised and adopted strategies and action plans related to cybercrime.
  - Stronger and operational specialised cybercrime units.
  - Better interagency cooperation and information sharing.
  - Improved civic participation, oversight and visibility of action on cybercrime.
  - International cooperation on cybercrime and electronic evidence improved.
  - Public-private partnerships between law enforcement and the private sector are in place.
