The EU-funded project, implemented by the Eurasia Partnership Foundation in partnership with Constitution Research Foundation aims to create and test a sustainable replicable agri-tourism/ecotourism development mechanism that would help rural households in southern regions of Azerbaijan increase their revenue and intensify the connection between urban and rural populations in Azerbaijan. The project promotes conceptual framework exploring how small and medium-size farms can combine agricultural products and tourism into an ecotourism strategy.

Expected results:

- Improved expertise of local private and public stakeholders in strategic planning; sustainable dialogue between private and public stakeholders in the agri-food production and tourism sectors; high-quality sustainable agri-tourism/ecotourism strategies;
- Access to information and business support services among private agri-tourism/ecotourism stakeholders; enhanced capacity of local agri-tourism/ecotourism stakeholders; several new destinations for agri-tourism/ecotourism and upgraded existing ones;
- Improved volume and quality of the information about TDs in the project regions; general awareness about opportunities agri-tourism/ecotourism offers.
