Welcome!

Information about Erasmus+, Erasmus Mundus Joint Masters, the Marie Skłodowska-Curie Actions (MSCA) and the National Erasmus+ Office (NEOs)

Erasmus+ is the European Union's programme for international mobility and cooperation. It provides funding for scholarships that enable students and staff to come to Europe's top higher education institutions. It also funds international Higher education cooperation projects.

Erasmus+ provides grants for short-term exchanges for students at Bachelor, Master and Doctoral level to study in one of 33 European Erasmus+ Programme Countries as part of their study programme through International Credit Mobility. Students at all study cycles can go on a physical mobility between 2 and 12 months (or between 5 and 30 days, if part of blended mobility). Erasmus+ also offers the opportunity to combine a period of study in a Programme country with a traineeship to gain work experience.

Erasmus Mundus Joint Masters are another opportunity for non-European students. These are full degree programmes at Master level jointly delivered by an international consortium of higher education institutions. They award full-study scholarships for students from all over the world. Study must take place in at least two of the European Countries.

Find out more about these opportunities [here](#).

The Marie Skłodowska-Curie Actions (MSCA) provide grants for all stages of researchers' careers - be they doctoral candidates or highly experienced researchers - and encourage transnational, intersectoral and interdisciplinary mobility.

The MSCA enable research-focused organisations (universities, research centres, and companies) to host talented foreign researchers and to create strategic partnerships with leading institutions worldwide.

Learn more about these opportunities [here](#).

National Erasmus+ Office (NEOs)

In the third countries not associated to the Programme concerned (Western Balkans, Eastern and Southern Mediterranean countries, Russia and Central Asia), the National Erasmus+ Offices (NEOs) assist the Commission, the Executive Agency and the local authorities in the implementation of the Erasmus+ Programme. They are the focal point in these countries for their stakeholders involved in the Erasmus+ Programme in the area of higher education, vocational education and training, youth and sports. They contribute to improving awareness, visibility, relevance, effectiveness and impact of the international dimension of Erasmus+.

[More information on the website of Erasmus+ Office in Azerbaijan.](#)

BELGIUM

NATIONAL PROMOTION AGENCY

Study in Flanders

www.studyinlanders.be • info@studyinlanders.be

Flanders, the Dutch speaking part of Belgium, is a great place to choose as your study destination. Why studying in Flanders or Brussels would be a smart choice: you will find excellent higher education with an excellent price/quality ratio in an open and multilingual society and an economically strong region, at the heart of Europe, boasting a high quality of life. Our 5 universities and 13 universities of applied sciences (and arts) offer a wide variety of English taught study programmes and welcome 13% of international students. Scholarships available.
