STUDY IN EUROPE

STUDY IN EUROPE

EUROPEAN UNION

MARIJANA KUJUNDŽIĆ

Ambassador of the European Union
to the Republic of Azerbaijan

This year, the EU Delegation to Azerbaijan organized a “Study in Europe” Education Fair, which offered young people the chance to discover the great opportunities for higher education in the European Union, which is notable for its world-class instruction, top facilities, and cutting-edge research.

We had the honour of hosting more than 30 universities and national education agencies from across Europe.

European higher education institutions have long been popular destinations for students looking to pursue Bachelor's, Master's, and PhD programmes. As a student myself, I had the opportunity to study in Europe and outside. This experience shaped my destiny as a diplomat. So, I would highly recommend every student to broaden their horizons and get international experience.

The “Study in Europe” Education Fair was also part of a larger, wide-reaching EU-Azerbaijan partnership. The EU has supported Azerbaijan’s education sector through 29 projects in the areas of inclusive education, pre-school education, quality assurance, and vocational education. This fair further contributed to building bridges between our countries. We were very pleased to have two universities from Azerbaijan participating in the fair: ADA and UFAZ, both of which have contributed greatly to student exchange programmes.

Education Shapes Destiny – Taleyini Təhsil Yazsın, as the slogan of this year’s education fair, reflects the objective of the European Union in supporting young Azerbaijani people for a brighter future.

Enjoy the opportunity to learn more about studying in Europe!

Erasmus+

Information about Erasmus+, Erasmus Mundus Joint Masters, the Marie Skłodowska-Curie Actions(MSCA) and the National Erasmus+ Office (NEOs)

Erasmus+ is the European Union's programme for international mobility and cooperation. It provides funding for scholarships that enable students and staff to come to Europe's top higher education institutions. It also funds international Higher education cooperation projects. Erasmus+ provides grants for short-term exchanges for students at Bachelor, Master and Doctoral level to study in one of 33 European Erasmus+ Programme Countries as part of their study programme through International Credit Mobility. Students at all study cycles can go on a physical mobility between 2 and 12 months (or between 5 and 30 days, if part of blended mobility). Erasmus+ also offers the opportunity to combine a period of study in a Programme country with a traineeship to gain work experience.

Erasmus Mundus Joint Masters is another opportunity for non-European students. These are full degree programmes at Master level jointly delivered by an international consortium of higher education institutions. They award full-study scholarships for students from all over the world. Study must take place in at least two of the European Countries.

Find out more about these opportunities here:

erasmus-plus.ec.europa.eu/opportunities/opportunities-for-individuals

The Marie Skłodowska-Curie Actions (MSCA) provide grants for all stages of researchers' careers be they doctoral candidates or highly experienced researchers and encourage transnational, intersectoral and interdisciplinary mobility.

The MSCA enable research-focused organisations (universities, research centres, and companies) to host talented foreign researchers and to create strategic partnerships with leading institutions worldwide.

Learn more about these opportunities: **marie-sklodowska-curie-actions.ec.europa.eu/**

National Erasmus+ Office (NEOs)

In the third countries not associated to the Programme concerned (Western Balkans, Eastern and Southern Mediterranean countries, Russia and Central Asia), the National Erasmus+ Offices (NEOs) assist the Commission, the Executive Agency and the local authorities in the implementation of the Erasmus+ Programme. They are the focal points in these countries for their stakeholders involved in the Erasmus+ Programme in the area of higher education, vocational education and training, youth and sports. They contribute to improving awareness, visibility, relevance, effectiveness and impact of the international dimension of Erasmus+. More information on the website of Erasmus+ Office in Azerbaijan:
